

Villach Region – Dobratsch Nature Park

WINTER IN THE NATURE PARK – UNPLUGGED

Leave the daily routine behind and enjoy the unique atmosphere of the wintery nature park. A guided night walk with historical lamps instead of artificial light takes you on a magical journey through time to the Hundsmarhof where a relaxed, atmospheric evening and the crackling campfire awaits.

A guided night walk with historical lamps instead of artificial light takes us on a magical journey through time to the Hundsmarhof, a mountain hut full of rustic charm. Away from mobile phones you can give free rein to the senses. What's important is right in front of you. Having arrived at the Hundsmarhof it's time to warm up by the crackling campfire. On the way back we reflect on what we've experienced and listen to fascinating stories about Dobratsch Nature Park. It's actually possible to slow down in these hectic times!

Please note:

Sturdy shoes (possibly with crampons), warm outdoor clothing, a headlamp and a bottle of water are recommended. **Mobile phones or other battery-powered devices are only permitted in exceptional circumstances.**

Guide:

You are accompanied by a specialised Nature Active Guide on the "Unplugged Tour".
Mag. Ulrike Knely – mountain guide and Nature Active Guide

"Anyone looking for an authentic outdoor experience away from noise, stress and the daily routine will love this tour. I welcome guests who haven't forgotten how to be amazed by the wonders of nature and are open to the magic of a meditative night walk in untouched surroundings with stories and facts about the nature park and region."
