### **Description/Program:**

The guided night hike starts at the parking lot V73 in Heiligengeist and leads us through the forest of the Dobratsch Nature Park to the Hundsmarhof, a unique alpine inn. During the walk, all cell phones and battery-powered lamps are to take a break and will be turned off. After a few metres you will be able to experience the mystical, mysterious atmosphere of the winter forest. It will captivate us and suddenly the scent of the forest, the fresh, cold mountain air and the voices of the animals of the forest will have a completely different meaning. Once arrived at the Hundsmarhof, a warming campfire in a nice atmosphere awaits us. If you want, you can strengthen yourself with local delicacies before we head the same way back.

During the way back, we will hear interesting stories about the Dobratsch Nature Park.

### **Special instructions:**

Good shoes, girdles, weather-adapted, warm clothes, headlamps and drinking water.

Mobile phones or similar battery-powered lamps are not allowed.

### **Guide/Support:**

During the "unplugged tour" you will be accompanied by Ulrike Knely, a trained nature active guide.

"All those who are looking for a pure, authentic nature experience far from noise, everyday life, stress and hectic rush will love my hike. I like to invite people who have not forgotten the wonder of natural phenomena and the magic of a meditative night walk in genuine natural scenery! They will also love my stories and information about the nature park and the region."
